ULTRA ELECTRONICS APPOINTS TECTONICA AS A VALUE ADDED DISTRIBUTOR FOR DEFENCE PRODUCTS

Tectonica Australia Pty Ltd (Tectonica) is proud to announce it has been appointed the exclusive distributor in the Australian and New Zealand Defence market for the Electrics business of Ultra Electronics (Ultra).

Under the agreement Tectonica will provide in-country applications and integration support for Ultra's advanced land systems products including power management, human/machine interface, situational awareness and battery condition monitoring products.

Ultra markets a wide range of proven vehicle power management, battery monitoring and electro-optical systems and crew station equipment. The company is also a supplier of a wide range of specialist equipment into civilian and defence aerospace programs.

Tectonica will work in conjunction with Ultra Electronics Australia Pty Ltd, which is based in Adelaide and coordinates Ultra Group's overall support within Australia and New Zealand.

Tectonica's appointment will ensure that the Australian Defence Force and OEM manufacturers can deploy and sustain the latest military vehicle solutions. As a participant of many UK armoured fighting vehicle flagship programmes and a founding member of the MILCAN user group, Ultra provides vast experience in military vehicle equipment and integration.

Miles Partridge, Tectonica Managing Director said, "Tectonica is delighted to partner with Ultra, a global leader in vehicle power and data solutions. This appointment builds on Tectonica's commitment to deliver state of the art capability enhancements and in-country systems integration and sustainment solutions to the Australian Defence Force."
