TECTONICA JOINS AUSTRALIA'S DEFENCE MATERIEL ORGANISATION SUPPORT SERVICE PANEL

Tectonica is proud to announce it has been appointed to the Defence Materiel Organisation (DMO) Support Service (DMOSS) panel. The panel provides DMO project and sustainment offices with prequalified specialist service providers.

Tectonica's highly experienced platform and systems engineering team has consistently and efficiently delivered advanced military systems that meet Defence capability gaps.

To provide DMO with access to a wide range of services, Tectonica has brought together a team of world class specialists with international recognition from Defence and Government clients in Australia, UK and US. Our partnership with Electronic Warfare Solutions (EWS) provides DMO with access to specialist skill sets in force protection and electronic warfare.

Miles Partridge, Managing Director said, "With the strong support of our partner EWS and our joint commitment to delivering high quality, innovative solutions, I am confident we can continue to deliver value for money services to support Australia's warfighter."

About Electronic Warfare Solutions

Electronic Warfare Solutions (EWS) has an organisational pedigree in the Electronic Warfare (EW) and Electronic Counter Measures (ECM) domains. It has decades of operational experience at operator through to command level, allowing it to provide focused domain knowledge in its fields of expertise.

EWS has a unique position, a fully independent organisation providing specialist assistance to industry and the user community alike. Its operational knowledge base is second to none allowing it to provide a clear understanding of complex subjects as well as an insight into operational demands. Its ability to “speak the language” smooths procurement programs, provides accurate and practical test and evaluation procedures and promotes a strong partnership between user and vendor.
