

STATIX

KNOW YOUR POWER

STATIX

KNOW YOUR POWER

STATIX Battery Tester provides equipment users and fleet managers with information to rapidly monitor battery status and manage battery fleets.

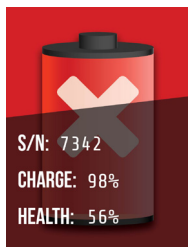

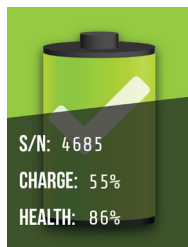

After battery connection STATIX automatically displays easy-to-read icons to rapidly determine battery health and charge, and saves over 30 fields of battery information to a removable SD card to enable monitoring and analysis.

Its rugged and maintenance free design makes it ideal for workshops and equipment stores.

With an intuitive design to pick up and go, STATIX is the essential tool to know your power.

SD Card included

The STATIX display enables users to quickly identify battery status.

STATIX range compatible with multiple battery types. Please enquire for other models.
